third parties, without further formalities on the part of the tax authorities;

Such tax measures shall cease within 30 days of the end of the state of emergency. The government, at its meeting on Wednesday, decided to adopt these measures.

As the Ministry of public Finance has launched a comprehensive program to guarantee and grant credits for micro, small and medium-sized enterprises in order to support the private environment and in particular the sectors hit hard by the COVID-19 crisis, but also the measure to reimburse VAT as soon as possible in order to ensure the flow of capital, capital injections to companies, and in order to get a refund, companies must have an updated fiscal situation, **it was decided to abandon the proposal to extend the deadline for submitting statements.**

The management of the Ministry of Public Finance and NATA assure the taxpayers that all exceptional cases, justified by delays in submitting statements, will be treated with all the openness and leniency stipulated by the law.
