

Stimati colaboratori,

Va prezentam mai jos comunicatul de presa ale Ministerului Finantelor Publice (MFP) din data de 27.05.2020 privind programul IMM Invest

Redam textul integral al comunicatului de presa:

Firmele care aplica pentru creditele garantate de stat in programul IMM Invest nu vor mai depune declaratii pe proprie raspundere prin care sa ateste ca au fost afectate de Covid 19, iar bancile nu vor mai institui ipoteca mobiliara asupra universalitatii bunurilor companiilor beneficiare.

Creditele acordate pentru investitii vor avea drept garantii suplimentare a garantiei acordate de stat doar asupra activelor finantate prin imprumuturile acordate, respectiv bunurile si echipamentele cumparate de companie.

De asemenea, in cazul creditelor pentru linii/capital de lucru, garantia se va constitui doar asupra conturilor deschise de beneficiarii imprumuturilor la banca titular a creditului.

“Astazi dimineata am depasit plafonul de 1 miliard de lei, erau aprobate 1.441 de credite, imprumuturi care au fost inregistrate inclusiv la Fondul de Garantare. In sistemul bancar sunt si mai multe credite aprobate. Dupa aceasta Ordonanta, viteza de aprobare a creditelor va creste”, a declarat ministrul Finantelor Publice, Florin Citu.

Guvernul a aprobat si propunerea Ministerului

Dear collaborators,

We present you below the press release of the Ministry of Public Finance (MPF) from May 27th 2020 on the SME invest program

We reproduce its content integrally:

The companies that apply for the state-guaranteed loans in the SME Invest program will no longer submit declarations on their own responsibility attesting that they have been affected by Covid 19, and the banks will no longer establish the mortgage on the universality of the assets of the beneficiary companies.

The loans granted for investments will have as additional guarantees the guarantee granted by the state only on the assets financed by the loans granted, respectively the goods and equipment purchased by the company.

Also, in the case of loans for lines / working capital, the guarantee will be constituted only on the accounts opened by the beneficiaries of the loans at the bank holding the loan.

"This morning we exceeded the ceiling of 1 billion lei, 1,441 loans were approved, loans that were also registered with the Guarantee Fund. There are even more approved loans in the banking system. After this Ordinance, the speed of approving the credits will increase ", declared the Minister of Public Finance, Florin Citu.

The government also approved the proposal

Finantelor Publice de a elimina prevederea potrivit careia bancile puteau solicita intreprinderilor mici si mijlocii care aplicau in programul IMM Invest o declaratie pe proprie raspundere prin care sa ateste ca au fost afectate de criza COVID-19.

Ministrul Finantelor, Florin Citu, a avut in cursul saptamânii trecute o întâlnire la Palatul Victoria cu reprezentantii Asociatiei Române a Bancilor, întâlnire catalogata ca fiind una istorica. Discutiile au vizat programul IMM Invest, dar si amânarea ratelor la banci. Totodata, au fost dezbatute si directiile de actiune ale unui parteneriat între Guvern si banci pentru relansarea economica.

In prima etapa, FNGCIMM a declarat eligibile un numar de 58.525 de IMM-uri si a transmis catre cei 22 de finantatori parteneri un numar de 53.063 solicitari, respingând un numar de 132 aplicanti care nu indeplineau conditiile de eligibilitate ale programului. La data de 20 mai, un numar de 5.330 de cereri aflate in aplicatia www.imminvest.ro se aflau in diferite faze de analiza a eligibilitatii sau sunt in stadiu de solicitare clarificari.

IMM INVEST este cel mai amplu program guvernamental dedicat antreprenorilor din România, este un program nou si complex prin mecanismul de finantare – garantare-ajutor de stat, pe care il pune la dispozitia IMM-urilor.

of the Ministry of Public Finance to remove the provision according to which banks could request small and medium enterprises that applied in the SME Invest program a statement on their own to certify that they were affected by the COVID-19 crisis.

The Minister of Finance, Florin Citu, had a meeting last week at Victoria Palace with the representatives of the Romanian Association of Banks, a meeting classified as a historical one. The talks focused on the SME Invest program, but also the postponement of bank rates. At the same time, the directions of action of a partnership between the Government and banks for economic recovery were debated.

In the first stage, FNGCIMM declared eligible a number of 58,525 SMEs and sent to the 22 partner financiers a number of 53,063 applications, rejecting a number of 132 applicants who did not meet the eligibility conditions of the program. As of May 20th, a number of 5,330 applications in the www.imminvest.ro application were in various stages of eligibility analysis or are in the stage of requesting clarifications.

SME INVEST is the largest government program dedicated to entrepreneurs in Romania, it is a new and complex program through the mechanism of financing - guarantee-state aid, which it makes available to SMEs.
